

I am opposed to the NAB's petition 04-160. I pay for XM radio's services and do not want the NAB or the federal government telling me what services I should receive and what I can listen to on my XM radio. I use XM's traffic and weather channels to keep informed and to plan for my day. XM has provided variety and good quality service for me and is not available any where else. I oppose any further consideration of this petition. I should be free to dictate which services I want to pay for and receive.
